

"test-data\yoda-metadata[uu013].json" metadata report (readYmeta v0.6.5.alpha)

Title

Reading about us and them: Moral and but not minimal group effects on language-induced emotion

Description

This folder contains the updated version of a previously archived package with DOI: 10.24416/UU01-2SO9TE . It contains all information regarding the experimental set-up, data, analysis, and publication of the experiment of Refining the Multiple Drivers Model: Minimal groups vs. Morality. More detailed information can be found in the readme.txt and in the paper "Reading about us and them: Moral and but not minimal group effects on language-induced emotion" by Björn 't Hart, Marijn Struiksmā, Anton van Boxtel, & Jos J.A. van Berkum.
