

## Title

Naturally Fermented Milk from Northern Senegal

## Description

Characterization of the bacterial community composition of a naturally fermented milk product (lait caillé), prepared in wooden bowls (lahals) in northern Senegal, which is produced with a bacterial biofilm to steer the fermentation process. A probiotic starter culture containing the most documented probiotic strain *Lactobacillus rhamnosus* GG (generic strain name yoba 2012) was included into the local fermentation process.
