Title
Reading about us and them: Moral and but not minimal group effects on language-induced emotion

Description
This folder contains the updated version of a previously archived package with DOI: 10.24416/UU01-2SO9TE . It contains all information regarding the experimental set-up, data, analysis, and publication of the experiment of Refining the Multiple.Drivers Model: Minimal groups vs. Morality. More detailed information can be found in the readme.txt and in the paper "Reading about us and them: Moral and but not minimal group effects on language-induced emotion" by Björn 't Hart, Marijn Struiksma, Anton van Boxtel, & Jos J.A. van Berkum.
